

# SD-WAN

## IS YOUR NETWORK SUPPORTING YOUR BUSINESS GOALS?

SD-WAN, or Software-defined Wide Area Networking, is a virtual WAN configuration that connects your employees at various locations with their data, applications, and each other. SD-WAN allows you to prioritize and direct traffic through your network, leading to IT cost savings, happier employees, and increased productivity.

## ACHIEVE GREATER CONTROL OVER YOUR ORGANIZATION'S NETWORKING AND CONNECTIVITY WITH SD-WAN.

A Managed SD-WAN can provide your business with the following core benefits:

-  Enhanced User Experience
-  Improved Productivity & Performance
-  Cost Savings
-  Total Network Visibility
-  Simplified Management
-  More Connectivity Options (LTE, internet, broadband, etc.)
-  More Flexibility
-  Improved Security

# HOW CAN A MANAGED SD-WAN SOLUTION HELP YOU?

The IT Weapons SD-WAN solution combines all aspects of network management, configuration, monitoring, support, and connectivity into one simplified solution. Backed by networking experts who understand how important your network is to your business, our SD-WAN is the ideal solution for geographically dispersed workforces that are ready to move into a cloud first future.

## WITH IT WEAPONS SD-WAN, YOUR BUSINESS CAN BENEFIT FROM THE FOLLOWING KEY SERVICES:

### **The ITW Cloud**

Provide private and secure internet across your entire organization with ITW's SD-WAN Cloud.

### **Full Spectrum Support & Management**

Backed by our 24/7 NOC and dedicated Network Operations Team, our team will ensure that your network is running at full capacity, allowing your employees to stay connected and productive.

### **Simplicity & Efficiency**

SD-WAN allows you to simplify your network architecture. You can use a multitude of connectivity options other than MPLS, such as LTE, Layer-2, and private internet connections. Reduce or optimize your TELCO spend and control your costs with a smarter, cloud-enabled network.

As a CRTC regulated telecommunications wholesaler, IT Weapons can provide the best available pricing from telecom providers across Canada. And we can consolidate and simplify your billing.

### **Reduced Cost**

SD-WAN allows your business to consolidate several services, which can prove to be more cost effective than a typical MPLS architecture.

### **Improved Security**

SD-WAN allows you to unify all of your network locations with the same integrated security protections. This includes content filtering, SPAM management, and more.

**IMPROVE PRODUCTIVITY AND PERFORMANCE TO POSITION YOUR ORGANIZATION AS  
A WORKPLACE OF THE FUTURE WITH IT WEAPONS SD-WAN.**
