

SECURE HYBRID WORK WORKSHOP

EMPOWER YOUR PEOPLE TO BE PRODUCTIVE AND SECURE FROM ANYWHERE

Are you a business leader trying to balance productivity and security for remote work? If so, **you're not alone**. Our workshop will show you how to conquer pandemic stress and take advantage of the many features of Office 365 to create a culture of adaptability and resiliency - **for whatever challenges lie ahead.**

WHAT IF YOU COULD PLEASE YOUR DEPARTMENT MANAGER AND YOUR COMPLIANCE MANAGER, ALL WHILE SUPPORTING A HYBRID WORKFORCE?

Through a solid understanding of your priorities and objectives, our experts will help you plan and implement a strategy that's right for you. If you're looking to empower people to be more productive and secure as they adapt to new ways of working with Microsoft 365, this is the workshop for you.

WHO IS THIS WORKSHOP FOR? IT Security, IT Compliance, IT Operations, IT Management

WHAT WILL I LEARN?

Our workshop will help you understand the most critical scenarios to enable secure hybrid work available with Microsoft 365. We will leave you with a concrete deployment plan and next steps.

Contact IT Weapons Toll-Free at 1.866.202.5298 or visit www.itweapons.com
IT Weapons is the nationwide IT services division of Konica Minolta Business Solutions Canada Ltd. As a Canadian leader in managed IT services and secure cloud services, our team will help streamline your technology so you can focus on business performance, not system performance.

WHAT WILL I RECEIVE?

- A deeper understanding of your hybrid workforce goals, including which scenarios to prioritize for maximum efficiency and security.
- An expert analysis of your current environment and workload to identify any potential blocks or challenges.
- A customized, detailed action plan with recommendations and next steps with real insights from your environment so you can take action immediately.

AGENDA:

SESSION 1: Overview and Adoption: Session Overview, Scenario Overview, Adoption and Usage Scenario Prioritization.

SESSION 2: Identity Planning: Identity, Environmental Analysis, Activation and Enablement.

SESSION 3: Microsoft Teams & Security: Teams Workload Analysis, Securing Teams and Foundational Security.

SESSION 4: Report and Recommendations: Engagement Overview, Deployment Checklist, Adoption Plan and Usage Scenario Prioritization, Identity Deployment Plan, Microsoft Endpoint Management, Self-service Password Reset, Multifactor Authentication, Conditional Access.

YOUR HOST: Our Microsoft-certified experts have years of experience helping clients align technology with culture and strategy to achieve their organizational goals.

Could your business survive a full stop in productivity?
