

OFFICE 365 SECURITY & PROTECTION

WE KEEP YOUR OFFICE 365 SECURE SO YOU CAN FOCUS ON YOUR BUSINESS

Office 365 Security & Protection is a powerful tool for any business, fortifying the Office 365 tenant with policies and settings that are optimized to serve your organization better.

With IT Weapons, you can rest assured that your organization's security posture is taken seriously; every day receiving Office 365 risk reports, and regular Microsoft Secure Score updates. The solution also provides quarterly reviews with security experts to enhance your Office 365 security posture, as well as reporting capabilities that alert our team of any potential threats.

HAVE YOU CONSIDERED THESE QUESTIONS REGARDING YOUR OFFICE 365 TENANT'S SECURITY?

- Do you know how well your Office 365 Tenant security policies are protecting your business?
- Are the "out-of-box" configurations still in use?
- Have you configured the critical security controls available in your Office 365 tenant?
- Do you periodically review and make tweaks to your Office 365 security posture according to Microsoft's latest updates and recommendations?
- Are you able to consistently troubleshoot security incidents that arise through Office 365?

FEATURES OF OFFICE 365 SECURITY & PROTECTION

- 🔒 Email protection through fortified anti-malware and anti-phishing defenses
- 🔒 Identity security through Azure AD password sync and Azure MFA for admins
- 🔒 Enhanced incident response and activity tracking through unified audit logging and mailbox auditing
- 🔒 Malicious links protection through anti-spam protection and Safe Links
- 🔒 Added visibility into the most targeted individuals within the organization through daily IT Weapons' Office 365 risk reports
- 🔒 Extended security recommendations through quarterly reviews with IT Weapons

OFFICE 365 SECURITY & PROTECTION

WE KEEP YOUR OFFICE 365 SECURE SO YOU CAN FOCUS ON YOUR BUSINESS

STAY PRODUCTIVE, STAY SECURE

For modern businesses, it is important to fortify commonly used applications like the Office 365 suite. Our solution is designed to reinforce your Office 365 tenant by optimizing Microsoft's built-in security features and delivering quarterly expert reviews along with the following benefits:

SECURE WEAK ENTRY POINTS

- Prevent dangerous links within emails from causing harm to your Office 365 tenant
- Protect admin accounts through Azure MFA to prevent data loss and incidents due to stolen passwords

STOP MALICIOUS THREATS

- Reduce spam, phishing and malware attacks that can threaten your business
- Stop malicious files from spreading across SharePoint Online and OneDrive

BE READY FOR INCIDENT RESPONSE

- Enable additional audit records for faster forensic analysis and issue resolution
- Regularly review and improve security with IT Weapons' Security Expert

IS YOUR BUSINESS FUTURE READY?

Technology is not just about today, but how your organization will continue to grow in an ever-changing technology landscape. As a true technology partner built on trust, IT Weapons will "keep the lights on," while supporting your business needs with innovation, client experience driven services and solutions.
